Cellnex Austria

Has balanced 61 tonnes of CO<sub>2</sub> equivalents in the year 2024

With:

GS Ethiopia Cookstoves

Anthesis Group invests in carefully selected carbon projects which combine CO<sub>2</sub> reduction and/or sequestration solutions with wider social and environmental additional benefits. These socially progressive projects improve the quality of life of people who are threatened by the impacts of climate change. As such, they are a powerful tool for sustainable development.
